Web and Content Management

I don't know how to do something in WPBakery. Where can I get help?

Please visit our [WordPress 101 Training website for a list of tutorials](#) that WPBakery has created for their tool.

Video tutorials include:

- WPBakery Page Builder Tutorial for Beginners

- Start Building Page or Use Default Templates

- Clone Elements in WPBakery Page Builder

- Add WPBakery Page Builder Row and Column

- Add and Edit Text in WPBakery Page Builder

- Add and Edit Images in WPBakery Page Builder

- Add and Edit Image Gallery

- Image Filters

- Create and Reuse Templates

- Inner Row Structure

- Custom Heading Element with Google Fonts

- Create Tabs, Tours and Accordions

- Add Background Color or Image

- Full Width Row

- Full Height Row and Video Background

- Parallax Background Effect for Row

- Edit Page and Post Titles

- Create Empty Space with Custom Height

- Element Design Options

- How To: Create Full Height Section with Parallax Effect

- How To: Build Feature List Layout

Web and Content Management

- How to Work with Template Library

If you still would like more help, please send a request to ithelp@glendon.yorku.ca to set up a meeting. Please include as much details as possible:

- include the URL of the page you're working on
- indicate what you want to do
- describe what you're doing that's not working
- include a screenshot if possible
