How do I see what my students see in Moodle/Eclass?

You can switch your role in Eclass to see what your students see as though you are a student logged into the course.

To do this, follow these steps:

1. Go to eclass.glendon.yorku.ca and log in.
2. Go into the course you wish to work with.
3. Click the profile button at the top right of the page (it has either your profile picture or a blank person's picture on it).
4. Select "Switch Role to"
5. Select "Student"
    1. This will bring you back to your course as a student sees it.

When you are finished and wish to return to your normal view follow these steps:

1. Click the profile button at the top right of the page (it has either your profile picture or a blank person's picture on it).
2. Select "Return to my normal role"
