Resnet

I am a residence student and I would like to get my gaming console/smart TV/other device connected to the network. How can I do this?

Residence networking is managed by UIT. Please follow the link to InRes FAQ: https://inres.info.yorku.ca/faqs/ To request a device to be added to the network, please use this form: http://uitcs.apps01.yorku.ca/machform/view.php?id=18947
